FOR IMMEDIATE RELEASE

Agriculture Goes to the World Wide Web

Webberville, Michigan-

Today, you and your organization can post an event online with absolutely no costs. Introducing the Alltech Agnetwork, powered by iHigh.com and Alltech.

This site will allow organizations to be able to post different items, such as live events, videos, pictures, and etc. onto the internet. You have the opportunity to have your own customizable webpage, advertising center, graphic package, and social media connectivity on this site. All of these feature for free. There is no cost, what so ever. Not even YouTube or USTREAM can say that.

You will have access to a mobile app that will allow people to get on to your site. They will also be able to watch live events on their mobile devices. Not too long ago, people were able to watch the opening session of the 2011 National FFA Convention live right on their computer or mobile device.

Many different organizations are using this site, such as USA Swimming, the National Federation of High Schools, US Lacrosse, and US Hockey.

This system allows you and your organization to **gain revenue**, not lose it. iHigh.com will help you to find ways to gain revenue, whether it is the receiving money for the ads on your page or the customizable store on the site. This site has great technical support, if you need it.

David Kravetz, the Director of Business Development at iHigh.com, said to a group of FFA students at the National FFA Convention, “We are always improving our site!”

To get in contact with the Alltech Agnetwork about getting a page, you can e-mail them at support@iHigh.com or you can call them at 859-514-3886.
