The chapter will be offering the following types of mulch:

		
<p>Absolute <b>Black Mulch</b> is a color-enhanced substitute for hardwood mulch. This shredded mulch product has been colored with a vivid, long-lasting black color.</p>	<p>Absolute <b>Red Mulch</b> is a color-enhanced substitute for cypress mulch. A long-lasting, vibrant red iron oxide has been added to the mulch.</p>	<p>Premium Dark <b>Hardwood Mulch</b> is a processed product that is dark in color with a natural appearance. Because of its color, it tends to accent most plants better than some of the lighter colored mulches. This mulch will decompose and break down, acting as a natural soil conditioner.</p>
		<p><b>Delivery will begin in late March and will continue through the end of April. All Mulch orders must be PREPAID.</b></p>
<p><b>Pine Bark Nugget Mulch</b> is composed of nugget-sized pieces of pine bark, approximately 2-1/2 inches in diameter and brownish in color. This mulch is good for acid-loving plants, trees and bushes.</p>	<p>Estate <b>Cypress Mulch</b> is light in color with a slight red or orange cast. Cypress mulch is long-lasting, and is slow to break down or decompose.</p>	<p><b>Any FFA member can take your order. When you place an order, you should EXPECT AND REQUIRE a receipt from the FFA member.</b></p>
